

FIRES STRAIGHT
AT HIS ENEMIESPresident Pours Hot Shot Into
Ranks of Progressives.

EMOTIONALISTS OR NEUROTICS

Speaking Before the New York City
Republican Club Chief Executive
Takes Occasion to Define His Views
of Those Who Call Themselves Pro-
gressives—Believes Party Will Tri-
umph at November Elections.

New York, Feb. 13.—President Taft brought his celebration of Lincoln's birthday to a close here with a political speech to the Republican club, in which he declared that it was his belief that Republicans would triumph next November and defined his opinion of those of his own political faith who call themselves progressives but who, according to the president, "are political emotionalists or neurotics."

His speech came almost at the end of a strenuous day that took him to Newark and Orange, N. J., and gave him six hours in New York to attend the political dinner and drop in at banquets of the Retail Dry Goods association and the Graduates' club.

While at the banquet of the Republican club the president received telegrams assuring him that two delegates to the Republican national convention from the Eighth Virginia congressional district and two more from Alaska, all pledged to support him, had been elected. Another telegram assured the president that the Colorado Republican state central committee had declared for him by a vote of 103 to 10.

Most of the prominent leaders of the party in the state were present at the banquet. At the guest table were former United States Senator Chauncey M. Depew, State Chairman William Barnes, Jr., Timothy L. Woodruff, S. S. Koenig, president of the New York county committee, and Henry W. Taft, the president's brother. William L. Ward, Republican national committeeman, who refused to attend the president's White House dinner to members of the national committee last December, also attended.

Takes Fling at Democrats.
The president attacked the Democrats especially for their proposition to reduce the United States army by eliminating one-third its cavalry and by departing "from the time honored policy of adding each year two new battleships to the navy."

For nine reasons, the president said, the Republican party could be regarded as the party of progress. That party, he said, had provided for the "close regulation of corporations given privileges by the state"; had passed and amended the interstate commerce act, the employers' liability law and a law for a mining bureau; had provided for workmen's compensation and mediation between railroads and their employees. It was willing, he added, to perfect the judicial procedure of the federal courts, would revise the tariff in accordance with sound principles of economics, had advanced a policy of conservation and stood for world peace.

The president was given a big demonstration when he arose to speak at the Republican club banquet and the main points of his speech were liberally applauded. Toastmaster Barnard, who had been alluding to Honest Abe Lincoln, introduced the president as "Honest Bill Taft, the head of our party." This started the cheering, which redoubled in volume as the president arose.

WILL SEE CAMPAIGN THROUGH

La Follette Sends Telegram to Min-
neapolis Supporters.

Minneapolis, Feb. 13.—Senator Robert M. La Follette will not withdraw from the presidential race he declares in a telegram to the Hennepin County Progressive Republican league.

The message, received by Hugh J. Hughes, chairman of a committee of the league, is in response to a telegram from the league to the senator and is as follows:

"I am deeply grateful to your committee for its expression of confidence and its steadfast loyalty. No misrepresentation from whatever source can take me out of the contest to bring government back to the people. We will not permit the issue to be obscured, nor take one step aside from the direct line of true progressive principle."

TO PROHIBIT THIRD TERM

Amendment to Constitution Intro-
duced in Senate.

Washington, Feb. 13.—Senator Reed of Missouri introduced his anti-third term amendment to the Constitution prohibiting the re-election of any person as president who has served two terms or one term and part of another. After being read it was laid on the table for later consideration.

Aged Negress Dies in Fire.

St. Paul, Feb. 13.—Mammy Anna Slate, who asserted she was 102 years old, was burned to death in a fire which destroyed her small hut. At one time she was governess in the family of former Governor Merriam.

LEGATIONS FEAR
SECOND REVOLTFirst Phase of War Ends With
Throne's Abdication.

EMPIRE SEETHING CALDRON

Chinese Imperial Edict Gives Reasons for Abdication of Throne, Saying Revolution Has Plunged People Into Misery, Popular Demand Is for Republic and From Preference of People's Hearts Will of Heaven is Discernible.

Peking, Feb. 13.—The legations consider that the first phase of the revolution has been concluded with the abdication of the Manchu dynasty, but they fear that the second may be more disastrous. The legations will deal unofficially with Yuan Shi Kai's government until it is recognized.

The Peking authorities are taking military precautions, but there have been no disorders in the capital. It is expected, however, that disorders will occur throughout the interior. The imperial army under General Chang Hsun, after sacking Suichow, Anhwei province, have for the most part dispersed, laden with loot and carrying off their arms and ammunition. The United States protected cruiser Cincinnati has gone from Shanghai to Tientsin, Shantung province, at the request of American missionaries, who fear the town may be sacked.

The publication of the edicts has given temporary relief to every one in Peking, both foreigners and Chinese. The arrangement is considered to be a skilful compromise, but it is believed that the terms will satisfy the Republicans. One of the edicts provides that the terms shall be communicated to the foreign legations for transmission to their respective governments, the object being to record worldwide the republican pledges.

Throne Sees Will of Heaven.

The text of the first imperial edict issued by the throne is as follows: "We, the emperor of China, have respectfully received the following edict from the hands of her majesty, the dowager empress:

"In consequence of the uprising of the republican army, to which the people of the province of China have responded, the empire is seething like a boiling caldron and the people are plunged into misery.

"Yuan Shi Kai was therefore commanded to dispatch commissioners in order to confer with the republicans with a view to the calling of a national assembly to decide on the future form of government. Months have elapsed and no settlement now is evident.

"The majority of the people are in favor of a republic. From the preference of the people's hearts the will of heaven is discernible. How could we oppose the desires of millions for the glory of one family?

"Therefore, we, the dowager empress and the emperor, hereby vest the sovereignty of the Chinese empire in the people.

"Let Yuan Shi Kai organize to the full powers of the provisional republican government and confer with the republicans as to the methods of union, assuring peace in the empire and forming a great republic with the union of Manchus, Chinese and Mongols, Mohammedans and Tibetans."

IMPERIAL FAMILY RETIRES

Ends Three Centuries of Absolute
Rule in China.

Peking, Feb. 13.—After three centuries of absolute rule the Manchu dynasty yielded up its power and abdicated the throne of China in favor of a representative form of government. This was proclaimed in three simultaneous edicts, the first announcing abdication; the second declaring that the throne accepted the republic, while the third approved all the conditions agreed upon by Premier Yuan Shi Kai and the republicans.

The abdication of the Chinese throne by Pu Yi, the child emperor, brings to an end the powerful Manchu dynasty, which has reigned in China since 1644. The boy ruler has been on the throne since Nov. 14, 1908, when the emperor, Kwang Su, his uncle, died. His father, Prince Chun, was appointed regent and was the chief figure in China for three years.

CHINESE WAR HITS BRITISH

English Troops Dispatched to Upris-
ing in Weihaiwei.

London, Feb. 13.—The British minister at Peking has notified the British foreign office that a revolutionary rising has occurred in Weihaiwei. A company of British troops will be dispatched immediately to that place from Peking. Weihaiwei, which contains a native walled city of the same name, was leased to Great Britain by China in 1898. It is administered by a commissioner.

INTERESTS' SPIES IN CAPITAL

Victor Murdock Says Privilege Has
Agents in Every Department.

New York, Feb. 13.—United States Senator W. E. Borah of Idaho and Victor Murdock of Kansas were the principal speakers at the banquet of the Lincoln league in Brooklyn. Mr. Murdock declared that "privilege has agents and spies in every department in Washington."

Mr. Borah declared that there now is "one political leader who is trying for a third term and another great leader who is seeking a fourth trial for a term as president."

JUDICIAL DEFECTS
NEED REMEDYINGSenator Crawford Gives His
Views at Jersey City.

Jersey City, Feb. 13.—Independence and fearlessness of the judiciary and the need of remedying defects in judicial procedure, civil and criminal, were urged in a speech delivered by United States Senator Crawford of South Dakota before the Abraham Lincoln association, which has celebrated Lincoln's day since his assassination. Mr. Crawford's theme was "The Federal Union and the States."

He said in part: "While it is necessary to maintain the independence and fearlessness of the judiciary we should frankly recognize the fact that there is much which calls for criticism in the administration of our courts. There are many defects in judicial procedure, both civil and criminal, which all admit should be remedied. The irritation and uneasiness of the people and their hostility to the courts are largely directed to the inferior federal courts."

"Should an amendment to the Constitution fixing the terms of the judges of the intermediate and lower federal courts at a period of six to ten years be proposed it would probably be ratified by the necessary number of states because of a prevailing opinion that some of these federal judges are too indifferent to the rights of the people and not sufficiently responsive to present day needs when passing upon issues between the people and special interests."

ROOSEVELT TO MAKE ADDRESS

Accepts Invitation Extended by Ohio
Constitutional Convention.

Columbus, O., Feb. 13.—Former President Theodore Roosevelt will address delegates attending Ohio's fourth constitutional convention Wednesday, Feb. 21. In his letter of acceptance Colonel Roosevelt says:

"I have been declining all invitations to speak, but this seems to me not so much an invitation to speak as a request that I help the representatives of a great state who are engaged in doing the greatest and most fundamental piece of governmental work on behalf of the citizens of that state; and under such circumstances it is both a duty and a pleasure to accept."

BREAKS EMBASSY WINDOW

Man Hurls Concrete Into British
Building at Washington.

Washington, Feb. 13.—After hurling a large piece of concrete through one of the front windows of the British embassy in this city a man giving his name as Frank Fitzpatrick waited on a street corner, opposite the embassy building, for the arrival of two policemen, who placed him under arrest. Asked why he had hurled the missile Fitzpatrick replied: "That's my own business."

Rejects Sherwood Pension Bill.

Washington, Feb. 13.—The Sherwood so called "dollar a day" pension bill was rejected by the senate committee on pensions and another measure which would involve an annual expenditure of \$22,000,000, proposed as a substitute by Senator Smoot of Utah, was adopted. Senators Brown of Nebraska and Curtis of Kansas gave notice that in the senate they would press the Sherwood bill as a substitute for the Smoot bill.

DODGING A VOTE
ON THIRD TERMDemocrats Feared Being Placed
In a False Attitude.

NOT AFRAID OF ROOSEVELT.

Thought Passage of Resolution Might Make Them Seem Otherwise—Central West Not Represented on Appropriations Committee—Victor Berger Goes After Both Sides.

By ARTHUR W. DUNN.

Washington, Feb. 13.—[Special.]—"Let the Democrats do it if they want to," was the word passed around by Minority Leader Mann of the house when the proposition was made to pass an anti-third term resolution. Then the majority party decided to prevent a record vote on the resolution, which had been introduced by Congressman Slayden of Texas. The insurgent Republicans were well pleased to follow Mann's advice, for they may want to support Roosevelt for a third term when the convention meets.

Democrats who prevented a vote upon the resolution do not want to be placed any further in the limelight as fearing the nomination of Roosevelt. That impression has become quite universal, and it is helping the Roosevelt boom among Republicans.

A Curious Distribution.

There are seventeen members of the senate committee on appropriations. Of these seven are Democrats, and all are from the south, counting Maryland as a southern state. Two of the Republicans are from New England, and the other eight are all from west of the Missouri river.

It is rather remarkable that in all the states between the Connecticut and Missouri rivers and north of Mason and Dixon's line and the Ohio river there is not a single member of the great appropriations committee. A little group of intermountain states are well represented—Wyoming, Montana, Nevada and Utah—while farther west are California and Oregon, and on the Missouri, Kansas and South Dakota.

Knox Tells a Story.

Secretary Knox said in his remarks at the National Press club on today night that logic was sometimes unreliable and told a story to illustrate his point.

"A man went into Broad street station at Philadelphia," said Secretary Knox, "and in a manner that I will not attempt to reproduce so early in the evening asked, 'How far is it from Philadelphia to Wilmington?' The official noticed that his inquirer was slightly intoxicated, but answered, 'Thirty-two miles.'"

"And how far is it from Wilmington to Philadelphia?" asked the bibulous traveler.

"The same distance, of course," was the reply—"thirty-two miles."

"That doesn't follow at all," retorted the man. "It's only a week from Christmas to New Year's, but it's a darn sight longer from New Year's to Christmas."

What a Senator Learned.

Senator Hitchcock of Nebraska makes an occasional trip abroad and was telling the other day of a new name for certain slips of the tongue.

"In England," said the senator, "the involuntary inversion of words is called a 'spoonerism,' so called after a canon of New College, Oxford, who achieved a long list of them. He announced at a religious service one day that as 'it was beery work speaking to empty wenchies' they would close by singing the hymn, 'From Iceland's Greasy Mountains.'"

"Another that amused me very much, which, by the way, I had heard before, was his remark to a lady who was sitting in his pew. He said, 'Madam, pardon me, but you are occupying my pi.' He also startled his audience one day by saying that he felt 'a half warmed fish' rising in his bosom."

A Shrewd Socialist.

Don't for a moment imagine that Victor Berger, the first Socialist elected to congress, is not very shrewd. He knows how to get applause when he takes the floor. For instance, he was discussing the tariff, and this is about the way things happened:

"The protective tariff is nothing but a bonus to manufacturers. [Vociferous applause on the Democratic side.] It is a humbug for the workingman. [More applause on the Democratic side.] While I am against high tariff, free trade would be worse. [Applause on the Republican side.] Products might be cheaper, but Chinamen, Hindus and Japanese would make them, and our people would be without work."

[Tremendous applause on the Republican side.]

And then Berger took a fall out of both parties, an ill return maybe for the applause he had received:

"Here is the Republican devil, there is the Democratic deep blue sea, and the workingman stands between them."

Keeping Him in Sight.

The senate cannot lose sight of Vice President Sherman except by unanimous consent. That is the only way a president pro tem. can be chosen. The insurgents still hold the balance of power, and they show no disposition to vote for the caucus nominee. Sherman feels obliged to be absent as little as possible.

Madden and Cortelyou Before House
Committee.

Washington, Feb. 13.—Former Postmaster General Cortelyou's testimony before the house committee on expenditures in the postoffice department, which is investigating his fraud orders against the E. G. Lewis Publishing company of St. Louis, developed many verbal clashes between Mr. Cortelyou and Edwin C. Madden, formerly his third assistant, but now counsel for Mr. Lewis.

Mr. Cortelyou said he had taken the Lewis case out of Mr. Madden's hand because "there was a lack of frankness" on the part of his assistant. Mr. Madden retorted that Mr. Cortelyou had not intended to be fair and challenged the postoffice department to show that Mr. Cortelyou's action in the Lewis case had been paralleled in any other.

LONDON PAPER SAYS
ASQUITH WILL RETIREAsserts Sir Edward Grey Will
Become British Premier.

London, Feb. 13.—The Daily Graphic suggests that Mr. Asquith is about to resign the premiership and that he will be succeeded by Sir Edward Grey. It further suggests that Secretary Haldane's mission to Berlin was to explain that although Sir Edward Grey has been credited with an anti-German policy his accession to the premiership would not interfere with Great Britain's desire for an entente with Germany.

As evidence confirming its idea the Graphic points out that Premier Asquith's private secretary, Vaughan Nash, has recently been appointed to another position under the government and that no successor has been nominated, making it difficult, adds the Graphic, to avoid the conclusion that Mr. Asquith no longer requires a secretary.

Brother Can't Tell Amount of Rocke-
feller's Chauffeur's Salary.

Cleveland, Feb. 13.—"How much does your brother John D. pay his chauffeurs?" an attorney asked Frank Rockefeller in municipal court.

"I don't know," answered Mr. Rockefeller. "He and I have not spoken to each other for twelve years."

Mr. Rockefeller was in court to fight a suit for \$63 brought by his chauffeur. He said that twenty automobile owners in his family paid their chauffeurs \$60 a month each. A judgment for \$44.29 was given the chauffeur.

Mr. Rockefeller announced that he would appeal.

Cape Haitien, Haiti, Feb. 13.—Severe fighting between the revolutionaries and government troops is reported on the Dominican frontier. General Zenon Toribio and Miguel were surprised during the night by government troops and during the fighting that ensued General Toribio was killed, while General Miguel was wounded.

At daybreak, however, the revolutionists attacked the government troops again and remained in possession of the field.

German Squadron Coming.

Berlin, Feb. 13.—The month of June has been selected for the visit of the German squadron to the United States to return the visit to Kiel of the Second division of the United States North Atlantic fleet last year. Prince Adalbert, the emperor's third son, will accompany the squadron.

TARIFF BOARD FUND LOW

May Not Be Able to Investigate Iron
and Steel Schedule.

Washington, Feb. 13.—The tariff board's money is running so low that it may not this year be able to investigate the iron and steel schedule, which is already under revision by congress. The leather investigation now under way probably will use up all the board's present appropriation. A supplemental report on the wool schedule, dealing principally with blankets and carpets, will be made in a few months.

Only Pardons Will Save Convicted
Murderers in Chicago.

Chicago, Feb. 13.—Construction of the scaffold on which five men are to be hanged in the county jail here next Friday, unless their sentences shall be commuted by the board of pardons Wednesday, has begun. A death watch also was placed over them.

The convicted slayers of Fred Goetzow, Jr., a truck farmer, Edward and Frank Shiblowski, Phillip Sommerling and Thomas Schultz, are exchanging cheering messages. Thomas Jennings, colored, whose conviction of the murder of Clarence D. Hiller on "finger print evidence" attracted wide attention, has turned "jail preacher." He has induced several prisoners to confess religion.

Final arrangements for the hangings will not be made until after the board of pardons meets.

INDICTED ON OLEO CHARGE

Packing Company Liable to a Fine of
\$132,500.

Atlanta, Ga., Feb. 13.—To sell \$4 or \$5 worth of oleomargarine a day in Atlanta the Cudahy Packing company has laid itself open to a fine of \$132,500, according to an indictment returned against the company in the United States court.

This unusual punishment has been invited, so the government charges, by petty illegal trafficking that in all could have profited the packers not more than \$1,000. The information presented to the grand jury was that the company sold about sixty pounds of oleomargarine a day to Thomas Hopkins, already under indictment as an "oleomargarine blockader," and received for it about 7 cents a pound.

CUMMINS TALKS ON LINCOLN

Senator Avoids Politics in Speech at
Grand Rapids Club.

Grand Rapids, Mich., Feb. 13.—At the annual banquet of the Grand Rapids Lincoln club and the Young Men's Republican club the speakers devoted their remarks almost entirely to the life and achievements of Abraham Lincoln.

United States Senator William Alden Smith of Michigan was toastmaster and the speakers included Minister Louren of The Netherlands, United States Senator Albert B. Cummins of Iowa, Representative Caleb Powers of Kentucky and Booker T. Washington.

The First Doll.

The origin of the first doll is difficult to trace, but there is said to be sufficient evidence to prove that it had ecclesiastical associations; that it was used in religious ceremonies to the gods or as symbols of the gods themselves, probably in the religion that preceded Brahmanism. India, the wonderland of the world, undoubtedly produced the first doll. Although we do not find specimens of these early images in India, we do find considerable literature bearing on the subject which goes to prove that dolls were in existence there even before the little wood, stone and clay nursery pets of Egypt were so carefully placed in the graves of children.

Arizona "Valentine State."

Washington, Feb. 13.—Arizona will become the "Valentine state" when, on Wednesday, Feb. 14, at 1 p. m., President Taft will sign the proclamation, officially adding the forty-eighth star to the flag. The president has announced that he would sign the proclamation at that time.

Newark Authorities Arrest Man Be-
lieved Insane.

Newark, N. J., Feb. 13.—William M. Meyers, who is believed to be demented, was arrested in the court-house shortly after President Taft had visited here. Meyers was in the crowd which greeted the president and it is alleged that he was overheard boasting that in two boxes he carried he had enough dynamite to blow up the buildings.

Opening the boxes at the police station the officers found two dry cell batteries and several hundred empty envelopes. Meyers will be examined as to his sanity.

TELLS PHILANTHROPIC STORY

Former Great Northern President Declares He Paid a Trifle Over Four Million Dollars for Minnesota Ore Lands That He Now Values at Five Hundred Millions—Says He Made Deal While Rockefeller Was Negotiating for Same.

Washington, Feb. 13.—James J. Hill entertained the Stanley steel committee and an audience composed of three or four hundred persons with a story of philanthropy that caused every one present to sit up in open eyed wonderment. In a matter of fact tone, as if he were discussing the weather or the signs of the times, the Northwest railroad builder told the story of how he acquired ore lands in the Mesabi region that he now values at \$500,000,000 for a mere bagatelle of \$4,050,000.

These ore lands, Mr. Hill testified under oath, covering an area of 39,000 acres, were formerly the property of Wright & Davis, a firm which operated a railroad and owned other property in the Mesabi region. Mr. Hill found out that this firm wanted to sell and just as a deal was about to be made with it by the Consolidated company, a Rockefeller concern, the head of the Great Northern stepped in and closed the bargain at \$4,050,000.

Mr. Hill turned over his interest in the newly acquired property to the Lake Superior Consolidated company, a corporation in which he, his three sons, L. W. J. W. J. and J. N. Hill, and E. T. Nicholls were the controlling spirits. Mr. Hill testified that he bought these ore lands for the benefit of the shareholders of the Great Northern. Asked if the Great Northern had not supplied the funds that enabled him to make the purchase Mr. Hill replied emphatically in the negative.

"I have been working for my shareholders for thirty-three years," said Mr. Hill. "Whenever I have seen an opportunity to make money for myself it was an opportunity that I turned to the advantage of my shareholders."

Mr. Hill was summoned by the committee to tell about the relations between the Hill and the steel corporation roads in the Mesabi country and also to narrate the circumstances under which the United States Steel corporation, represented by J. P. Morgan, acquired the Hill ore properties under lease.

Mr. Hill had barely commenced to tell his story of his operations in the Lake Superior region when an adjournment was taken.

PRAISE TAFT AT BANQUET

St. Paul Republicans Also Commend
Governor Eberhart.

St. Paul, Feb. 13.—President Taft, Governor Eberhart, Mayor Keller, Senator Knute Nelson and Representative F. C. Stevens were praised and applauded in turn and to the exclusion of other statesmen and candidates at the annual banquet of the St. Paul Lincoln club at the Saint Paul hotel. H. P. Keller was given an ovation when introduced as the present and next mayor of St. Paul.

J. Adam Bede's address was a warm eulogy of President Taft.

Governor Eberhart in his address said that in politics he preferred the calm, deliberative method of Lincoln to the impetuous barnstorming of Stanton.

Letters were read from President Taft, Senator Nelson, Representative Stevens and F. B. Kellogg. The threatened demonstration for Roosevelt did not appear.

ADVOCATES COMMON SENSE

Former Senator Beveridge Delivers
Address at Denver.

Denver, Feb. 13.—Common sense and honest methods as a panacea for governmental and commercial ills, bodily imprisonment in place of money fines, a national corrupt practices act applicable to state and county committees that have anything to do with the election of national officials, a permanent nonpartisan tariff board and national control of child labor were advocated by former United States Senator Albert J. Beveridge of Indiana in an address here.

DYNAMITING ARRESTS SOON

Warrants Said to Be Out for Fifty-
four Men.

Indianapolis, Feb. 13.—On the eve of the arrest of the men indicted in the dynamite conspiracy cases it was reported that the number of defendants would be fifty-four. The arrests may take place any minute.

Many officers in one labor union and one officer in each of two other unions are believed to be involved. It is understood that no individuals west of Salt Lake City not heretofore involved in the dynamiting inquiries are under indictment here.

Many cities in the East and in Ohio, Illinois and Missouri are said to be the points from which the federal authorities expect to receive reports of arrests.

deavored to ensnare her, but was re-
warded by being told that his stand-
ing in finance would remain so low,
that matrimony would be a failure
for him. She will entertain in men-
tal telepathy again this evening and
her manager will present the mystic
straight jacket escape tonight.

TELLS HOW TO CURE A COLD

**Surely Breaks the Most Severe Cold
and Ends Grippe Misery in
Just a Few Hours**

The most severe cold will be broken,
and all grippe misery ended after
taking a dose of Pape's Cold Com-
pound every two hours until three
consecutive doses are taken.

You will distinctly feel all the dis-
agreeable symptoms leaving after the
very first dose.

The most miserable headache, dull-
ness, head and nose stuffed up, fever-
ishness, sneezing, running of the nose,
sore throat, mucous catarrhal dis-
charges, soreness, stiffness, rheuma-
tism pains and other distress vanish-
es.

Pape's Cold Compound is the re-
sult of three years' research at a cost
of more than fifty thousand dollars,
and contains no quinine, which we
have conclusively demonstrated is not
effective in the treatment of colds or
grippe.

Take this harmless compound as
directed, with the knowledge that
there is no other medicine made any-
where else in the world, which will
cure your cold or end Grippe misery
as promptly and without any other
assistance or bad after-effects as a 25-
cent package of Pape's Cold Com-
pound, which any druggist in the
world can supply.

NOT SALTS, OIL OR PILLS BUT CASCARETS

o Odds how Sick Your Stomach; how
Hard Your Headaches or how
Bilious—Cascarets Make
You Feel Great

You men and women who somehow
can't get feeling right—who have an
almost daily headache, coated tongue,
foul taste and foul breath, dizziness,
can't sleep, are bilious, nervous and
pset, bothered with a sick, gassy, dis-
ordered stomach, or have backache
and feel all worn out.

Are you keeping clean inside with
Cascarets or merely forcing a pas-
sageway every few days with salts,
cathartic pills or castor oil? This is
important.

Cascarets work while you sleep;
cleanse and regulate the stomach, re-
move the sour, undigested and fer-
menting food from the liver and carry
out of the system all the decomposed
waste matter and poison in the in-
testines and bowels.

A Cascaret tonight will straighten
you out by morning—a 10-cent box
from any drug store will keep your
entire family feeling good for months.
Don't forget the children. They love
Cascarets because they taste good—
do good—never gripe or sicken.

The First Mince Pies.

It is said that the first mince pies
were made by an old lady who had
unexpected company the day after
Christmas. She had plenty of sub-
stantial food to place before them, but
no sweets. Part of a cold plum pud-
ding was the only available thing, and
she hastily chopped it up, inclosed it
between crusts of pastry, baked it, and
—behold, the first mince pie! It was
so successful that she improved upon
the formula, and from that has come
our ever popular mince-meat.—London

MANY MINING LEASES RECORDED

Activity in This Regard is Shown by Records at Register of Deeds Office

ROYALTIES THAT ARE NAMED

Braierd, Deerwood, Duluth and Iowa People Interested in the Lands Mentioned

Considerable activity in the way of making mining leases on mineral lands in the county is evidenced by the records of the register of deeds office.

Fred L. Cotton, of Jefferson, Green county, Iowa, gives an option for a lease to Anna M. Flynn and M. E. Ryan, covering lands in the northeast quarter of the northwest quarter and lots 1 and 2 in section 31-47-29. For \$200 for Jefferson sells the exclusive right and option for a period of two years from February 6, 1912 to buy or sell the surface right for not less than \$15 per acre. The lease is filed wherein he grants land for mining purposes for a period of 50 years at the rate of 15 cents per ton royalty on a minimum annual output of 20,000 tons for the first five years and a minimum annual output of 50,000 tons thereafter until the termination of the lease.

Annie Ringhand and husband option lands in the south half of the southeast quarter of section 2-46-28 to Percy A. Gough. Grantors and grantee are Deerwood people.

George E. King and wife lease lands in the south half of the southwest quarter, the northeast quarter of the northwest quarter, the north half of the north east quarter and north half of southeast quarter of section 27-47-29 and nw of sw of section 31-47-29 to the North Star Iron Co. Originally this was leased to Franklin W. Merritt, of Minneapolis, by the grantors for exploring and mining iron ore and Merritt subsequently transferred his lease to the North Star Iron Mining Co. The royalty specified is 10 cents per ton.

The Cuyuna Exploration Co. and W. P. Lardner, of Duluth, have an agreement on record which states that the exploration company owns a half interest in the mining lease made and executed by Swan Peter Nelson and Anna Sophia Nelson, his wife to W. P. Lardner and Alexander Hamfield dated July 20, 1911 and covering the south half of the northeast quarter and government lot 1 in section 2-46-29 which lease and assignment of an undivided one half interest thereof was conveyed by Alexander Hamfield and wife to the Cuyuna Exploration Co. and recorded August 22, 1911. Lardner agrees to perform all the terms, covenants and conditions set forth in the mining lease and to be kept and performed by Hamfield and releases Hamfield from any further obligations to Lardner which may have been imposed upon him by a certain agreement heretofore entered into between Lardner and Hamfield.

Arthur J. Harker and wife gave an option for a mining lease to Patrick Hammell covering the west half of the southeast quarter and the east half of the southwest quarter of section 22-47-29 executed by E. J. Hunter and Louise Hunter, his wife. Harker shall continue his exploration of the premises for iron ore and Hamfield agrees to pay Harker from time to time one-eighth of all amounts Harker has paid and shall pay for exploration work and making payments provided by the second option mentioned in the instrument. If upon fulfilling these conditions Harker will take a mining lease Harker will assign a one-eighth interest to Hamfield or if he should sell he will give Hamfield one-eighth of the net proceeds of the sale.

Arthur J. Harker and wife convey a one-eighth interest in the same option as above mentioned on the same terms and conditions to John Nolan.

GERMAN LUTHERNS TO BUILD CHURCH

German Lutheran Zion's Church Will Probably Occupy The Old Site 423 N. 10th Street

STRUCTURE TO BE 36 BY 45 FEET

Contractor E. H. Husemann is Engaged in Drawing the Plans for the Church

The German Lutheran Zion's congregation, which was so unfortunate as to have its church almost completely destroyed by fire, has commenced preparations to rebuild and from what can be ascertained from P. H. Gruenhagen, one of the active members of the church, the new structure will be erected on the site of the old church at 423 North Tenth street.

The building will be about 36 by 45 feet in size with an 18 foot ceiling. All possible modern improvements in the way of seating and other arrangements will be incorporated in the plans which are now being drawn by Contractor E. H. Husemann.

The building, it is expected, will be commenced as soon as the weather permits in spring.

MEN ARE AMONG BEST CITIZENS

And it is Unfair to Practically Exclude From the Privileges of Full Citizenship

The St. Cloud Journal-Press says: The secretary of the State Railway Employees' Protective association is sending out a letter to the newspaper advocating the amendment to the anti-pass law, which will permit railroad employees, if holding some local office, to still retain their railroad passes. He refers to a case in Brainerd where there was difficulty in getting a member of the board of education from the Fourth ward, of which most of the residents were employees of the Northern Pacific, because none wanted to surrender their transportation for a position which carried with it no compensation.

A year ago there was a similar case in this city. There was a pretty unanimous sentiment in one of the ward for a railroad employee to serve as alderman, which he of course had to decline, for fear of losing his railroad pass on the road for which he worked. In towns like St. Cloud, Brainerd, St. Paul and others, a considerable per cent of the men are employed by some railroad. These men are among the best citizens, take an active interest in municipal affairs, many of them owning their own homes, and educating their children in the public schools. It seems unfair to practically exclude them from the privileges of full citizenship. The law permits them to have passes on the roads for which they work, and why should this be taken away from them when they are asked to serve the public in positions paying no salaries, and when they are giving the public much of their time and energy?

Public sentiment would certainly sustain the legislature in making railroad employees the one exception from the provisions of the law of 1907.

DISPATCH WANTS PAY—TRY ONE

NEW 5 & 10 CENT STORE FOR CITY

Woolwerth & Co., Head of a Chain of These Stores, to Open in Brainerd March 1

LOCATING AT 618 FRONT ST.

Will Expend From \$1,000 to \$1,500 in Improving Front of Store and Making Other Changes

A new five and ten cent store will open its doors to the public on or about March 1 when Woolwerth & Co., formerly the S. Knox Co., will occupy 618 Front street, the present quarters of Louis Hohman.

The Woolwerth company owns a chain or system of five and ten cent stores dotting all of America and many parts of Europe. Their decision to establish a branch store in Brainerd was not made until the town was thoroughly examined. The company never puts in a store unless it is assured the town they wish to do business in is certain of a steady growth.

A long lease was secured by the company from R. Buchman and Henry I. Cohen, who is now associated with Mr. Buchman in some of his enterprises. From \$1,000 to \$1,500 will be spent on improvements and alterations. A new front is to be put in resembling the style which the Woolwerth company has generally adopted in the many cities in which they are located.

THE GENERAL PROPERTY TAX

The Theory is That Every Person Should Bear His Just Share of the Public Expense

The following is the third article contributed by the Tax Commission in a series now running in The Dispatch on the subject of taxation:

The main reliance of the minor divisions of the state, and, to a less extent, of the state itself, is upon what is termed the "general property tax" levied directly upon the real and personal property in the state. The theory of this tax is that every person should bear his just share of the public expenses and that his ability to bear it is proportioned to the value of his real and personal property. This has been the theory upon which this kind of taxation has been based since the state was organized.

In the table given in the report of the tax commission for 1910 is the following statement of the taxes raised in 1909 and the uses to which they were applied:

State taxes: For revenue and other purposes was levied \$174,743.19; schools and university, \$1,364,256.34; interest and principal on state loans, \$539,658.71; making a total of \$3,046,658.24.

County taxes: For revenue, \$3,451,650.20; roads and bridges, \$869,940.75; poor, \$357,826.26; bonds and interest, \$550,083.73; other special taxes, \$594,462.95; making a total of \$5,823,963.89.

City and village taxes: For revenue, \$4,970,153.92; roads and bridges, \$434,785.08; poor, \$247,584.52; bonds and interest, \$1,477,230.93; local assessments, \$1,461,326.49; other special taxes, \$1,146,324.51; making a total of \$9,737,405.45.

Township taxes: For revenue, \$687,931.68; roads and bridges, \$1,394,313.65; poor, \$62,189.67; bonds and interest, \$92,637.14; delinquent road, \$365,461.77; other special taxes \$167,478.62; making a total of \$2,700,612.53.

For school district taxes: local 1 mill tax, \$1,105,026.98; bonds and interest, \$180,200.37; other special taxes, \$7,550,402.69; making a total of \$8,835,630.04.

The grand total of taxes on land and personal property was \$30,813,670.15. In addition, the municipalities derived revenue from indirect sources, such as liquor licenses, not included in the above. It may be worth noting that approximately 10 per cent of this total was used to pay interest and principal.

ST. CLOUD IS INVITED

Class of Fifty to be Initiated by the Knights of Columbus on Sunday by Brainerd Council

The St. Cloud Journal-Press says: The Brainerd council Knights of Columbus will initiate a class of 50 candidates in the three degrees of the order on next Sunday at Brainerd. At the social session held by the St. Cloud Knights last evening, Grand Knight W. W. Barron, of Brainerd, extended an invitation to all the members present to attend the ceremonies. A large number from this city will go to Brainerd next Sunday morning by the way of Staples to attend the festivities.

DEFINES COUNTY ATTORNEY'S DUTIES

Late Opinion of Attorney General's Office Definitely Clears up the Question

COUNTY CONTINGENT FUND \$200

Not the Duty of County Attorney to Go Out Personally and Investigate Cases

There seems to be a belief in the minds of some people that it is the duty of the county attorney to personally go out and investigate violations of the criminal laws, or hire others to do so.

That this is an erroneous idea is shown by the opinion of the attorney general, in answer to an inquiry made by County Attorney Peterson, as follows:

Assistant Attorney General William J. Stevenson, in the opinion, said: "While the county must assume the financial burden and responsibility of apprehending offenders, and prosecuting for crimes committed within its borders, the legislature does not seem to have contemplated that the county attorney should have even the implied power to pledge the credit of the county in excess of his contingent fund for expert or extra assistance to determine if a crime has actually been committed, or who might be the perpetrator thereof, or his whereabouts."

"Except for the act authorizing the contingent fund, the county attorney is not given the duty of ferreting out crime and criminals; the office created by the legislature is not endowed with any of the rights or duties of a common law office, and has only statutory powers."

After quoting the statutes on the county attorney's duties, the opinion continues:

"From none of the foregoing can it be claimed that there is any express or implied duty resting upon said officers, either to go out personally and investigate crimes or engage others to do so."

"The contingent fund of Crow Wing county is only two hundred dollars (\$200) and is designed for other legitimate purposes," said County Attorney Fleming.

Third Ave. Property Owners Will Meet Thursday Evening

The property owners of Third avenue will hold a meeting at the East Brainerd house next Thursday evening, at 7:30 o'clock. It is requested that everyone interested in any way on Third avenue, should attend this meeting, as business of importance will come up for discussion.

Almost Lost His Life

S. A. Stid, of Mason, Mich., will never forget his terrible exposure to a merciless storm. "I gave me a dreadful cold," he writes, "that caused severe pains in my chest, so it was hard for me to breathe. A neighbor gave me several doses of Dr. King's New Discovery which brought great relief. The doctor said I was on the verge of pneumonia, but to continue with the Discovery. I did so and two bottles completely cured me." Use only this quick, safe, reliable medicine for coughs, colds, or any throat or lung trouble. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

ONLY TWO PLEASANT DAYS IN THE PAST FIFTY YEARS

Arguments Why Date Should Be Changed to the Last Thursday In April.

March 4 Usually Marked by Storms, Freezing Temperatures and High Winds.

If congress could regulate the weather as it regulates the trusts, the railroads and a thousand other things, there would be no need for the proposed constitutional amendment changing the date of presidential inaugurations from March 4 to the last Thursday in April. But inasmuch as the weather for inauguration days cannot even be predicted, much less regulated, it seems wise to many members of congress to get around the problem by changing the time.

Within the last fifty years there have been only two inauguration days which could be called really pleasant. On many there have been rain and snow, often combined with high winds and low temperatures. More than once presidents elect have risked the chances of pneumonia by braving the weather on the east front of the capitol. That thousands of American citizens who have witnessed inaugurations on stormy days have suffered illness and death as a result of the exposure is well known.

Washington is not a city which is particularly well equipped for wintry days. No large snow cleaning force is maintained, because such a plant would be idle most of the time. During the recent extreme cold weather many persons in private dwellings and apartments suffered because heating facilities were not adequate to meet the unusual conditions. The average citizen of Washington does not possess an arctic outfit, because he seldom needs it, while the average visitor does not bring one with him, because he is apt to be under the impression that he is going to the sunny south. Thousands of such visitors on inauguration day have discovered, however, that the nation's capital can be just as wintry and disagreeable on occasions as almost any other city in the United States.

Weather Record an Argument.

The weather record of past inaugurations is a standing argument for a change of date. It is a record which is filled with storms of rain and snow, freezing temperatures and piercing winds. That no president has met his death as a direct result of exposure at an inauguration seems astonishing when this record is read. Ordinarily a president takes the oath of office on the steps of the capitol and also stands there while he delivers his inaugural address. During a part of the ceremonies he is bareheaded. Not only is the incoming president taking a risk, but also many high officials of the government who are in attendance, notably the chief justice of the United States, who administers the oath and who is usually a man of advanced years. On a few occasions it has been necessary because of the violence of the weather to hold the ceremonies in the senate chamber, the public thus being denied a view. This was the case in 1900, when President Taft was inaugurated.

When Abraham Lincoln was inaugurated for his first term in 1861 the day was overcast, although there was no rain. There were high winds, however, varying from southwest to northwest and accompanied by rapid changes in temperature. The mercury at one time registered 79 and at another period of the day showed 30 degrees less. The weather bureau has no available record of the second Lincoln inauguration in 1865.

Hayes Was Fortunate.

Both of the Grant inauguration days were unpleasant. In 1869, when he began his first term, March 4 opened with rain, which continued until an hour before the ceremonies. After that the day was cloudy. The temperature ranged from 30 to 43 degrees, with light winds. The second Grant inauguration, in 1873, was signalized by very cold, but clear, weather. There were brisk north winds. The highest

\$34.61 FOR EACH PERSON.

Per Capita Amount of Money in Circulation in United States.

An equal division of all the money in the United States would result in each man, woman and child possessing \$34.61. That amount is the per capita circulation, according to the calculation of the treasury department, which estimates that the population of the country has grown from 91,972,296, as determined by the census of 1910, to 94,958,000 on Feb. 1, 1912. The stock of money in America is fast climbing up into the billions. On Feb. 1 there was \$3,624,572,121 in the United States. Of this \$338,302,481 represented the assets of the government, and \$3,286,269,640 was in circulation. Thirty-three years ago the entire amount in circulation in this country was \$816,266,721.

\$3,000,000 UNGUARDED.

Placed in One Cent Pieces in Rural Mail Boxes and Some Stolen. During the last year over 300,000,000 one cent pieces, intended as payment for stamps, postal cards and money orders, were collected by the rural carriers from mail boxes in which they had been deposited.

Rural boxes are not safe, and quite a considerable amount was extracted by persons who are not fearful of the federal government. Postmaster General Hitchcock has sent out a warning to all those who receive their mail through rural carriers that they should deposit no more coins in their boxes. If they must buy stamps and money orders hereafter they should go to the postmaster or consult personally the carrier on their route.

GOETHALS SAYS CANAL IS 70 PER CENT DONE

Great Panama Waterway Likely to Be Open Before Jan. 1, 1915.

Colonel George W. Goethals, chairman and chief engineer of the isthmian canal commission, is on a visit to Washington.

Colonel Goethals said that the canal was surely going to be opened officially on Jan. 1, 1915. To the question, "When will the canal be actually completed?" he answered:

"It will never be completed."

He meant thereby that there would have to be a perpetual tinkering and perhaps reconstruction in certain parts of the work. He could not generalize on the percentage of work that had been completed. At Culebra the percentage completed was about 75 and at the Gatun section about 87. In the several other parts of the canal the percentage was between 50 and 90. Perhaps the general average might be put at more than 70.

The great ditch maker said that the slides in the Gatun and Culebra sections had been practically nullified by reducing the pressure on the sides. The cement gun for strengthening the embankments had been given up.

When Colonel Goethals learned that the house committee had decided not to make the canal free, but to charge tolls for ships of all nationalities, including American, he said gleefully, "That is what I told them." The colonel said his views on the fortification of the canal were well known, and it was not necessary for him to say more about the subject. He has advocated fortification and the operation of the canal under trained officers and employees. The actual work will be completed, he has said, before January, 1915, and it is likely that the ditch will be unofficially opened months before the formal ceremony of opening, when all ships that pay the tolls may go through.

UNIFORM HOURS OF LABOR.

McCall of Massachusetts Proposes an Amendment to the Constitution.

A resolution proposing an amendment to the constitution granting congress the power to pass laws regulating the hours of labor generally throughout the United States has been introduced in the house by Representative McCall of Massachusetts. Mr. McCall believes the adoption of the resolution would bring about better relations between capital and labor and in time result in the elimination of strikes. In discussing the resolution Mr. McCall said:

"It would be well to have uniformity in such a fundamental factor in production as the hours of labor. If one state in a given industry prescribes a certain number of hours a week and another state a much less number of hours there will, of course, be a difference in the cost of production of goods sold in a common market."

"The producer who is restricted to work his plant a lesser number of hours will inevitably resort to wage cutting, and there should be a likelihood of strikes and other labor troubles. Where we have a common market it is advisable with regard to production to have uniform labor hours. The adoption of this resolution would in effect give congress jurisdiction over the problem of child labor without resort to evasion of the constitution."

FLOWER SHOW IN 1913.

Europeans Will Compete With Americans For \$15,000 In Prizes.

The Society of American Florists and Ornamental Horticulturists through the national flower show committee has closed a contract with the International Exposition company to hold an international flower show the first week in April, 1913, when more than \$15,000 will be offered in prizes. The show will be held in New York, and a number of societies will contribute gold medals and other trophies for the competitions.

There are more than fifty representatives of foreign florists in this country, and many of these will exhibit the latest creations of flowers and plants in competition with the products of this country. Owing to a law recently passed by congress all goods to be exhibited in this country are admitted free, and this will enable European florists to make entries without the usual customs annoyance.

The national flower show committee consists of Charles H. Totty, Madison, N. J., chairman; J. A. Valentine, Denver; W. N. Rudd, Chicago; Thomas R. Bond, Boston; W. P. Craig, Philadelphia, and W. A. Manda, South Orange, N. J.

PROF. STARR PREDICTS WAR.

Russia and Japan to Fight; Also Japan and China.

Study of conditions in the orient has convinced Professor Frederick Starr of the University of Chicago that Korea will, within the next few years, be the battle ground for two great wars, one between Russia and Japan and the other between Japan and China.

Starr in a recent lecture justified the Japanese government for breaking its promise to maintain the independence of Korea on the general grounds that Japan is overcrowded.

He declared the Russian government, humiliated over its defeat, is biding its time and making preparations to give a better account of itself.

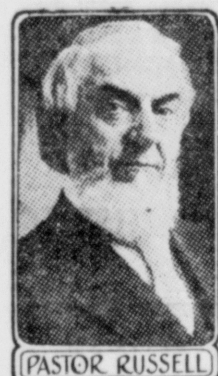

THE GREATEST MAN.

The greatest man is he who chooses the right with invincible resolution, who resists the sorest temptations from within and without, who bears the heaviest burdens cheerfully, who is calmest in storms, most fearless under menace and frowns and whose reliance on truth, on virtue, on God, is most unflinching.—William Ellery Channing.

PLAIN WORDS TO RICH AND POOR.

Compliments John Wanamaker on Princely Gift.

Pastor Russell, Accompanied by Foreign Missions Investigation Committee, Preaches in Victoria Hall, Madras—Large Audiences Heard Him Twice Yesterday.

(PASTOR RUSSELL)

Madras, India, Feb. 11.—The "Foreign Missions Investigation Committee" is here. Our finest auditorium, the Victoria Hall, was crowded to hear Pastor Russell, He spoke twice today.

Report one of his discourses from the text: "The blessing of the Lord, it maketh rich; and He addeth no sorrow therewith." (Proverbs x, 22.) He said:—

"The thing which strikes me specially as I visit your great city for the first time is the marked contrast between the palaces of your superior quarter and the hovels of Blacktown—the contrast between great riches and great poverty. But think not that I have come to speak words which would engender strife or even discontent. Rather my message is one of peace.

The inequalities, mental and physical, which prevail amongst us as members of a fallen race, produce naturally our inequalities as respects wealth and social conditions; it is well, therefore, that we should not accept the rabid views entertained by many, but we should think soberly, dispassionately. We should remember that God Himself is very rich. All the gold and silver are His, and the cattle upon a thousand hills, with infinite power, beyond human comprehension.

We should remember that it is written that "Abraham was very rich," and that his riches did not interfere with the fact that he "was the friend of God," and that to him God gave that great promise secured by the Divine oath, which is the basis of all hope for the blessing of the world: "In thee shall all families of the earth be blessed." Other noble characters on the pages of history are noted as having possessed great wealth.

We should therefore view the matter of poverty and riches philosophically. Both poor and rich should be encouraged to use faithfully the opportunities which they possess and to wait patiently for the Lord's time and way for the introduction of the new order of things which He has promised, assured that it is not in our power to hasten or delay the Divine program.

Bible Counsel For the Rich.

The Apostle says, "Charge those amongst you who are rich that they trust not in uncertain riches." The history of centuries corroborates the Apostle's words. The rich and prominent of one day become the poor and forgotten of another. "Riches take wings" in a manner that poverty rarely imitates. The talents and opportunities which have brought great wealth to some of our prominent Americans have brought wealth and prosperity in smaller measure to those associated with them in their enterprises. Indeed, in some respects the entire world, and particularly America, owes them a debt of gratitude for their energy and perseverance in the exercise of their talents along such broad lines.

My mind took this course of reasoning as I looked at the handsome edifice occupied by the Y. M. C. A. of this city, and I was informed that it was the gift of one of our American merchant princes, Mr. John Wanamaker, of New York and Philadelphia. I said to myself, Behold an instance in which riches have been generously expended, even in a far-off land, for the benefit of the masses and with a desire to promote calm and noble manhood along Christian lines.

God's Blessing Maketh Rich.

Our text is an epitomized statement of the Gospel of Christ. All God's blessing for our race will come through the Seed of Abraham—The Christ. The giving of His Son to be man's Redeemer and Deliverer from sin and death was God's blessing to man-making man rich. Messiah, having died for the redemption of the world, is about to bestow upon men the Divine blessing promised to Abraham—"In thee and in thy Seed shall all the families of the earth be blessed."

That blessing to the non-elect world will be a glorious opportunity for rising up out of sin and death conditions to full human perfection in the image and likeness of God—as Adam possessed this before his fall. It will mean the bringing of the earth to the conditions pictured in Eden. The earth, God declares, He formed not in vain, but to be inhabited. At present man is in a condition of enmity and separation from his Creator and his earthly home is disordered. God's footstool, for 6,000 years, has been the scene of a terrible reign of Sin and Death.

The only hope is in Messiah's Kingdom, which God has promised shall be established for the overthrow of Satan, the abolishing of ignorance and superstition, the enlightenment of mankind and the uplift of all the willing and obedient and for the destruction of the wilfully wicked in the Second Death.

Articles of Incorporation of Brainerd Creamery Company

For the purpose of forming and being a corporation under and by virtue of Chapter 53, of the Revised Laws of Minnesota for the year 1905, and all acts amendatory thereof, in so far as the same applies to creameries, the undersigned do hereby declare that they do hereby associate together and agree upon the following articles of incorporation.

I. The name of the corporation shall be "Brainerd Creamery Company." Its principal place of business shall be Brainerd, Crow Wing County, Minnesota, and the general nature of its business shall be the buying and selling of milk and cream, and the manufacture and sale of butter, cheese and other milk and cream products of every nature and description, and also the buying and selling of meats and poultry and fruits and farm produce of every kind and description, and acquiring and holding such property as may be necessary for and incidental to the carrying on of such business.

II. The period of its duration shall be thirty years.

III. The names and places of residence of the incorporators are: Benjamin S. Armstrong, Ray H. Paine, Fritz M. Hagberg, Catherine L. Armstrong, all residing in Brainerd, Minnesota, and Joseph R. Armstrong, residing in St. Paul, Minnesota.

IV. The government of this corporation and management of its affairs shall be vested in a Board of five directors, each of whom shall be a stock holder, and the following officers shall be chosen by the board of directors of said corporation, President, Vice President, Secretary and Treasurer. The directors shall be elected by the stock holders by ballot, each stockholder being entitled to cast as many ballots as he has shares of stock annually on the first Monday of February of each and every year, commencing with 1912, and said officers and directors shall each hold office one year from the day of their election, and until their successors are elected and qualified; and until the first annual election to be held on the first Monday of February, 1913, the following named persons shall act as the first Board of Directors: Benjamin S. Armstrong, Ray H. Paine, Fritz M. Hagberg, Catherine L. Armstrong, all residing in Brainerd, and Joseph R. Armstrong, residing in St. Paul, Minnesota, and until such election Benjamin S. Armstrong shall be President, Joseph R. Armstrong, Vice President, Ray H. Paine, Secretary and Treasurer. Two or more of the officers above specified herein may be held by the same person, except that of President and Vice President.

V. The number of shares of the capital stock of said corporation shall be two hundred and fifty, and the amount thereof shall be one hundred dollars each, and may be paid for either in property, money or services, as the Board of Directors shall elect, and said stock shall be subscribed for at such times, and in such amounts as may be prescribed by the Board of Directors. This corporation may commence doing business when it has received from its subscribers the sum of ten thousand dollars par value of its stock shall be subscribed and paid for.

VI. The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be ten thousand dollars.

Long Service.

Perhaps the world's record for long service is held by the occupant of a grave in the churchyard at Battle, Sussex, England. This is Isaac Ingall, who died in 1798 at the age of 120. For ninety years he was in the service of the Websters of Battle abbey. Sarah Thompson of Belfast served eighty-three years with one family, dying in 1835.
